

Product Overview

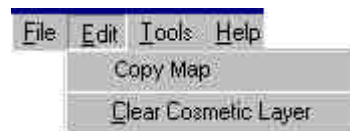

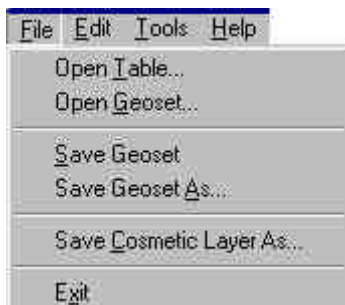

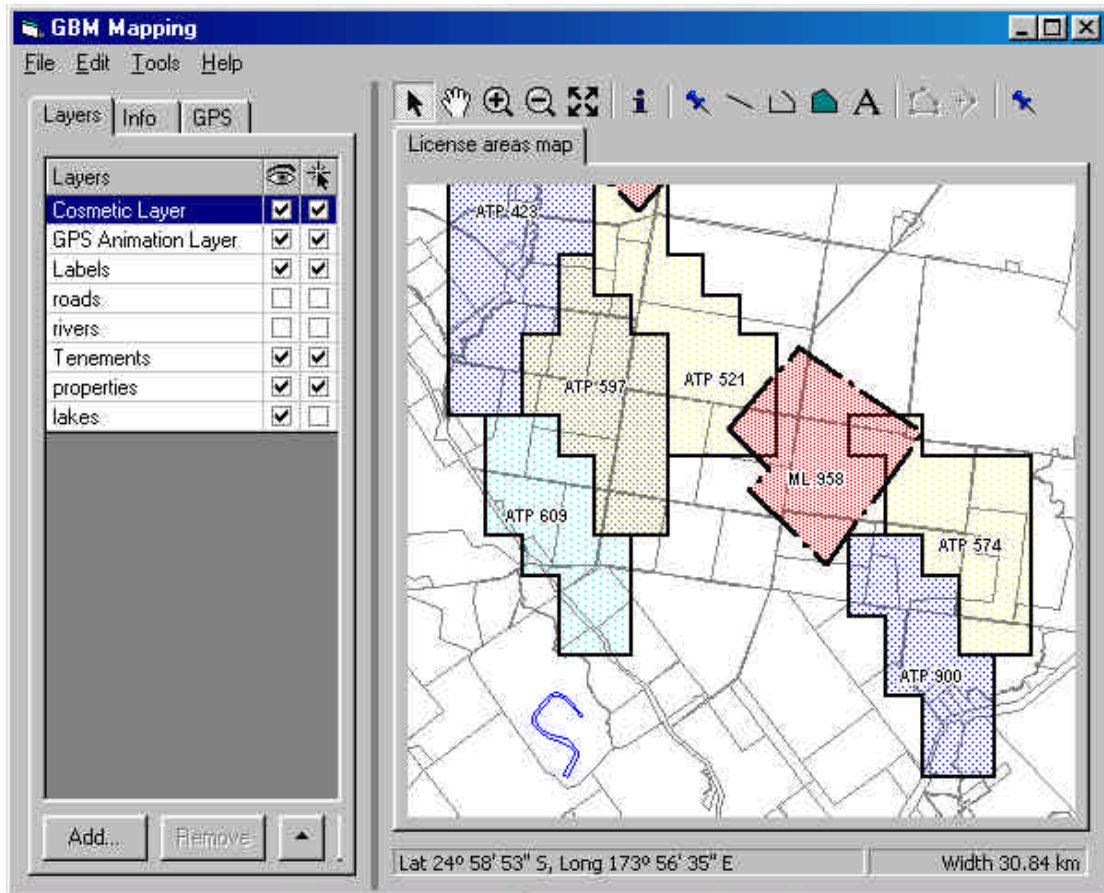

GBM Mapping V2

from Exa-Min Technologies

Key Phrases

- ◆ View and interrogate GIS map
- ◆ GPS tracking
- ◆ Drawing and annotation

GBM Mapping is a member of the GBM Software and GeoBasemap product range developed by Exa-Min Technologies.

The product incorporates MapInfo MapX technology and is released in a number of configurations:

Standard Edition

This is the base system. It allows end-users with minimal GIS expertise to open and view GIS maps, interrogate information attached to map objects and track location provided by a connected GPS receiver.

Additionally, users may draw annotations on a cosmetic layer and save that layer as a GIS data file. Map can be saved between sessions and views copied to the windows paste buffer for insertion into other windows applications such as Microsoft Word.

Linking Edition

The linking edition incorporates all features of the standard edition but also supports hot-linking to external applications through GeoBasemap MapLinker.

MapLinker and the underlying GBM Linker integration server supports two way hot-linking between a wide range of external applications including GIS viewers, Document and Asset management systems. The GBM Linker SDK supports development of plug-ins for additional applications including Microsoft Access or other in-house developed applications.

Enhanced Edition

The enhanced edition extends the linking edition with user customizable GIS interrogation tools including smart find, GIS locate, and Smart Info. The enhanced edition supersedes the GeoBasemap XLinker application.

Custom Editions

GBM Mapping provides a robust framework for fast track development of custom mapping solutions. Customer specific implementations commonly involve incorporation of custom dialogs onto the left hand frame and integration of custom business rules to control interaction of these dialogs with the wide range of specialist mapping functions supported by the core product.

Customers benefit from the reduced development time and reductions in ongoing software maintenance costs made possible from leveraging on the robust pre-developed components and mapping logic built into the GBM software development libraries.

GBM Software, GBM ImageLinker, MapLinker and GeoBasemap are Exa-Min trade marks.

License Agreement

Overview

To preserve and protect their rights under applicable law, Exa-Min is not selling you ownership rights to this software and/or data. Exa-Min specifically retains title to all its software, and any related materials and Exa-Min licensors retain title to items owned by them.

You are authorised to install and use this software under license. By proceeding with the installation of this software, you are agreeing to comply with all the terms of the license agreement detailed below.

If you are operating under an evaluation licence, you are required to un-install the software on expiry of the evaluation period.

Conditions of Use

GeoBasemap and GBM SOFTWARE Software License Agreement and Limited Warranty

Attention: Read this agreement before opening the diskette package. This is a legal agreement between you, the end user, and Exa-Min Technologies Pty Ltd. By opening this diskette package you are consenting to the terms of this license. If you do not agree to the terms of this agreement, do not open the disk package. Return the unopened disk package and the other items, including written material within seven (7) days to the place from which they were purchased for a full refund.

Grant of License: Under this agreement Exa-Min Resource Technologies Pty Ltd, Australian Business Number 92 056 558 493 (Exa-Min) grants to the Licensee the right to use its GeoBasemap Software (Software) in accordance with the terms and conditions of this Software License Agreement and Limited Warranty. This Agreement will be binding on this Version of the Software and on any future updates.

Ownership of Software: Exa-Min retains all rights, (including copyright) title, interest to and ownership of the Software and related data recorded on the original disk(s) supplied to the Licensee and all subsequent copies of the Software and any manual or written material accompanying the Software and is protected by National and International Copyright laws and conventions.

Uses of the Software: The Licensee may only use this Software on a single computer or on one node of a network.

Restrictions on Use: Only the Licensee may use the Software.

The Licensee may not:

make and/or distribute copies of the Software except for backup purposes where possession of the backup copies is retained by the Licensee; distribute copies of the Software or accompanying written materials to others; modify, decompile, disassemble, or reverse-engineer the Software

Termination: If the Licensee fails to comply with any provision of this Software Licence Agreement and Limited Warranty, termination is automatic, without notice from Exa-Min. Upon termination, the Licensee must destroy all written material and the Software and related data. Exa-Min can also enforce its other legal rights.

Limited Warranty: To the full extent permitted by the Commonwealth, State, Territory or other law or laws applicable to this Software License Agreement and Limited Warranty, any conditions or warranties imposed by such legislation are hereby excluded. Insofar as liability under or pursuant to any such legislation may not be excluded, such liability is limited to:

replacement of the software; or

correction of defects in the software at the exclusive option of Exa-Min for a period of ninety (90) days from the date of delivery of the Software to the Licensee as evidenced by a copy of the delivery docket/receipt.

Except as and to the extent that it is herein provided, under no circumstances shall Exa-Min or its servants or agents be liable for any loss, damage or injury including without limitation any loss of profit, indirect, consequential or incidental loss, damage or injury arising from the supply or use of the Software and any accompanying manual or written material or any failure by Exa-Min or its servants or agents to perform any obligation or observe any term of this Software Licence Agreement and Limited Warranty.

acknowledges the following:

the Software and accompanying data and written material is supplied “as is”;

Exa-Min, its servants and agents have made no promise, representation warranty or undertaking in relation to the profitability of or any other consequences or benefits to be obtained from the delivery or use of the Software and any accompanying written material and data or in relation to the correctness accuracy reliability or currentness of such Software an accompanying written material and data; that the Licensee has relied upon its own skill and judgement in deciding to acquire the Software and accompanying written material and data;

that this Software License Agreement and Limited Warranty is the complete and exclusive agreement between Exa-Min and the Licensee and supersedes all prior proposals, agreements or communications, oral or written, relating to the subject matter of this Software Agreement and Limited Warranty;

that the Licensee has read and understood and agreed to be bound by the terms and conditions of this Software License Agreement and Limited Warranty; and

that this Software License Agreement and Limited Warranty shall be governed by the laws of the State of Queensland, Australia.
